- *Increase click-thru rates*
- *Promote and group trending content*
- *Distribute across plug-ins*

**Embed Trending Ad Units within any of our EverWondr Plug-ins.** Choose from ad units that play video, offer image slideshows, editorials or regional lists of must-see content. Use them to help you spotlight upcoming events. Use them to link to other content in your site for longer stays. Or sell the ad space to create a new revenue stream for your organization. All content is maintained through the EverWondr admin panel. The process is simple and the perfect compliment to any of your EverWondr Plug-ins.
